-SERVICE INFORMATION LETTER NO. 0068

Date: August 23, 1977  
Subject: Oleo Boot Kit  
Model: F-28A, F-28C, 280, 280C  
Effectivity: All Serial Numbers

The Enstrom Helicopter Corporation has available to all customers an oleo boot kit to cover the chromed extension area on the oleo struts. Added protection from moisture and corrosion will be attained by installing this product improvement. All boots are made of transparent silicone which allows the operator to make the usual preflight check for proper oleo extension. This kit consists of four oleo boots and four tie wraps to secure the boots to the struts.

The oleo boot kit can be acquired by contacting Enstrom Customer Service. Specify Kit No. 276.
